2. Objectives:- The main objective of the Phase V MCT programme is to build "next level competency". As the officers of this level would be dealing with management of forest resources at supervisory/policy level in the States, considerable input on policy issues would be provided. The endeavor would also be to equip the officers to handle conflicting interests and demands, to carry along multiple stakeholders, to work in partnership with private sector and civil society and to interface effectively with political classes. Further, they would be facilitated to update their self development plans and to acquire suitable skills like leadership, change management etc. so as to make them confident enough to address the new environment of greater complicity and ambiguity in which they would be working. Finally, a two-week exposure visit abroad will provide the officers global perspective as well as exposure to international best practices.

3. Mandatory nature: The Indian Forest Service (Pay) Rules have been revised vide notification no. 20011/1/2006-AIS-II dated 21.02.2008 and its amendment through IFS (Pay) Second Amendment Rule, 2008 vide notification no 14021/3/2008-AIS-II dated 27.09.2008, to make the MCT programmes compulsory for award of Junior Administrative grade, IInd Super time scale and further increments respectively to the concerned officers. Therefore, it would be the responsibility of the concerned State Government and the officer him/herself to be in a position to attend the programme as per the schedule.

4. Out line of the course: - The programme has been designed with great care based on scientifically assessed training needs of the officers of 26-28 years seniority. During the course, a two-week exposure visit would be conducted by Syracuse University, USA for a group of 30 participants and by University of British Columbia, Canada for the remaining 30 participants of the group. During foreign study visit, the officers will visit key institutions and project sites, identify the innovative forest policy issues and explore the pros and cons of adapting them in Indian context. The final week of the programme after returning from the foreign tour would be held at IGNFA, Dehradun in which group presentations will be made by the participants and discussions will be held on the identified themes.
